The Major Revisions & other Features of PIP 2022-24 for facilitating PIP implementation are as follows.

- The major reforms made in the PIP is introduction of two year PIP cycle instead of one year as done in previous years. Reduction in budget lines to facilitate flexibility and easier implementation of SNA and a shift in focus from mere inputs to outputs agreed by the state in the form of key deliverables have been placed at Annexure-2.
- The Conditionalities Framework for FY 2022-23 and FY 2023-24 is attached herewith. It is noted that Full Immunization Coverage (FIC) % will be treated as the screening criteria and Conditionalities would be assessed for only those State which will achieve 90% Full Immunization Coverage.
- All the support for Human Resources for Health (Especially Clinical Manpower) under NHM will be to the extent of gap found between manpower in position (through regular & outsourced mode at a particular health facility against the staffing recommended in IPHS and corresponding health facility level caseload. NHM aims to strengthen health system by supplementing and hence it should not be used to substitute regular HRH.

- d) All unspent balance available under NHM with the State as on 1st April 2022 has become a part of the approved budget of FY 2022-23. Similarly all the unspent balance available as on 1st April 2023 would become a part of the budget for FY 2023-24.
- e) Action on the following issues would be looked at while considering the release of first tranche of funds.
- a) District should not have more than 25% of the total release (Central + State Share) as unspent amount.
 - b) District should have completed all the task related to SNA and implementing Agencies mapping.
- f) Action on the following issues would be looked at while considering the release of subsequent tranche of funds:
- a). State must have spent at least 75% of the total release (Central+ State Share).
- g) The District/ Other implementing agency must ensure due diligence in expenditure and observe in letter and spirit. All rules, regulations and procedures to maintain financial discipline and integrity particularly with regard to procurement: competitive bidding must be ensured and only need- based procurement should take place as per PIP approvals.
- 1) The unit cost /rate wherever approved for all activities including procurement, printing etc. are only indicative for purpose of estimation. However, actual are subject to transparent and open bidding process as per the relevant and extant purchase rules.
 - 2) Third party monitoring of civil works and certification of their completion through reputed institution shall be introduced to ensure quality. Also, information on all ongoing works should be displayed on the NHM website.
 - 3) Ensure regular meetings of District Health Missions/ Societies. The performance of State Health Society (SHS)/ District Health Society (DHS) along with financial and audit report must be tabled in Governing body meetings as well as State Health Mission and District Health Mission meetings.
 - 4) The accounts of District grantee institution/ organization shall be open to inspection by the sanctioning authority and audit by the Comptroller & Auditor General of India under the provisions of CAG (DPC) Act 1971 and internal audit by Principal Accounts Officer of the Ministry of Health & Family Welfare.
- h) The activities approved under NHM for FY 2022-23 & FY 2023-24 is to be reflected in NHM-PMS portal. State & District to ensure that the valid data entries are made in the portal and it will be analysed for progress under NHM along with key deliverables.
- i) The approval for new infrastructure is subject to the condition that the State/ District will use energy efficient lighting and other appliances.
- j) The District shall submit Non-Duplication Certificate in prescribed format for all civil works (New/upgradation).

- k) The District shall submit Non-Duplication Certificate in prescribed format for all equipment/instruments procured.
- l) The District & other implementing agency must provide for all the entitlement schemes mandatorily. No beneficiary should be denied any entitlement because of any limitations of approved amount for such entitled base schemes. Wherever required, the State must suitably increase the provision in such FMR. The ceiling of 10% shall not apply in such cases.
- m) The District & other implementing agency to ensure that Janani Suraksha Yojana (JSY) and Nikshay Poshan Yojana (NPY) payments are made through Direct Benefit Transfer (DST) mechanism through 'Aadhaar' enabled payment system or through NEFT under Core Banking Solution.
- n) Though approval for all activities have been given for two years but process can only be initiated immediately to undertake non recurring activities of FY 2023-24, especially civil works & procurement of EIF (if the facilities are ready in all aspects for operationalization). However, preparatory process may be initiated for other approved activities of FY 2023-24 at the earliest to roll out of the activities in the beginning of FY 2023 -24. The implementation process for all activities of FY 2022-23 to be undertaken as usual.
- o) The District must ensure mandatory disclosures on the State NHM website all publicly relevant information as per previous direction of Central Information Commission(CIC), and letters from MoHFW.
- p) All approvals are subject to the Framework for Implementation of NHM and guidelines issued from time to time from MD, NHM and observation made in this document .

Let us re-affirm our commitment towards ensuring resilient Health Systems which are sustainable and equipped to provide equitable, affordable and quality health care that is accountable and responsive to people's needs. I look forward to work with you all and achieve the set targets under key Deliverables and Key conditionalities set by Gol for our district within the given timeframe.

Yours faithfully,

Encl: As above.

HWC Scoring for NHM Conditionality FY 2022-23 and 2023-24

Method for giving Score to the State for AB-HWCs (it has two Parts):

1. Indicator for achieving State Level AB-HWC operationalization Targets:
 - a. 10 marks for achieving State Level AB-HWC operationalization Targets
 - b. 10 marks for the states/UTs creating regular cadre of CHO position for AB-HWC
 - c. 15 marks for achieving more than State Level AB-HWC operationalization Targets
2. Indicators for AB-HWC Scoring – max 75 marks – Average scoring of all the functional AB-HWCs will be taken to arrive at the same.

For capturing above data NCD screening register is highly required for following reasons</p> <ol style="list-style-type: none"> 1. It is the mandate of GoI to maintain register. 2. For line listing & follow up of the patients up to down the line. 3. Periodic Distribution of medicine/drugs under free drugs distribution of Diabetes and HTN drugs. 4. Proper & correct monthly reporting. 5. Proper Supervision & Monitoring of common NCDs.ASHA of respective village will monitor periodically at least twice a year. In this context state also providing incentive to ASHA in a package manner. 6. Validation of NCD reportings.The MO portal entry is in initial stage so it is essential to capture the data in black and white. 7. In the year 2016-17 NCD screening register have supplied partially but now Odisha is targeting 100% of PBS

Reproposed the following activities which could not be taken up during 2020-21 due to COVID pandemic situation. It is a highly essential training for better service delivery for ENT patients as decided by technical committee. This is a hands on training & requires the ENT Spls. to be present physically during the training. But due to COVID the Spls. were engaged at DHHs and not allowed to attend training physically.

Integrated Training Manner
One month hands on training on Functional Endoscopic Sinus Surgery (FESS) of ENT Specialist at SCB MCH, Cuttack / AIMS Bhubaneswar and hands on training on Functional Endoscopic Sinus Surgery (FESS) of ENT Specialist at SCB MCH, Cuttack / AIMS Bhubaneswar at integrated manner as both of the training are similar in nature.

9.5.12.1		National Level Refresher Training of LTs for 10 Days	15/ Per Batch	420000	4.2	0	0.00	0	0.00	Microscopy is the gold standard to detect malaria. As Odisha has shown a rapid decline in the current years, it is pertinent to go for microscopy of each and every positive case in context of malaria elimination. The aim and objective of the national level refresher training of LTs is to create master trainers for the state who will further train other LTs of the state. Total 2 batches are proposed for 2022-23 & 2023-24. Proposed Load for 2022-23: 1 batch @15/ Batch Approved Budget for 2022-23 & 2023-24: @Rs. 4,20,000x 1 batch per year = Rs. 4,20,000

10.3.1.6		LQAS Related cost	Per Block	2000	0.02	0	0.00	0	0.00	State has a sanction of 180 VBDS for 314 Blocks. Hence one VBDS is assigned with >1 Block. Low endemic coastal districts have only one VBDSs to work for multiple Blocks (even more than 5) of the districts. Sanction of funds for LQAS per VBDS will be inadequate to conduct LQAS in multiple Blocks. Hence sanction may be given per Block instead of per VBDS. Funds for LQAS (for printing of formats etc) for 30 MTS/VBDS of 106 Blocks of 11 non GFATM districts @ Rs. 1000/- twice a year Budget Approved: 1. For 106 Blocks of 11 Non- GFATM districts: Rs. 2000 X 106 Blocks = Rs. 2.12 Lakhs 2. For rest 208 Blocks of 19 GFATM districts : Budget is proposed under FMR code: 16.1.5.2.2

	10.5.5	Sub-national Disease Free Certification: Malaria	Per District	200000	2	0	0.00	0	0.00	National disease free certification for Malaria Kendrapara & Jagatsinghpur have reported 0 indigenous case in 2019 and also in 2020. In 2021, Jagatsinghpur has reported zero indigenous case but Kendrapara is reporting two indigenous cases. The concerned cases do not show any direct travel link as per the investigation made by the district, which has to be verified. As such, It's a big achievement to maintain zero indigenous case status consecutively. These 2 districts are expected to continue this zero indigenous case reporting status in 2022-23. Hence as per Gol guideline, the name of these two districts have been proposed for disease free certification for malaria, provided they are validated by independent evaluation. Taking the current malaria epidemiological scenario into consideration, following budget is proposed : 1. FY 2022-23 - Jagatsinghpur & Kendrapada @200000/- per district = Rs.. 4,00,000/- 2. FY 2023-24 - Bhadrakh & Puri @200000/- per district = Rs.. 4,00,000/-

Entomology is an integral part of vector borne disease control programme, as entomological evidences decide the course of action and determine the mid course correction in programme implementation. State has only 3 entomological zones which become difficult to cater the need of 30 districts that are differently endemic for different VBDs. Along with the functionality of these 3 zonal units, establishment and functioning of additional zonal units are necessary to meet the growing entomological demand of the state. 	12.11.4	Any other (please specify)					-		-	1. Printing of AES case register As per national guideline JE/AES NVBDP GoI, all AES case must be reported under AES surveillance in the state. It is revealed that AES cases are not either recorded and/or reported from DHHs/MCHs with maintenance of date/area wise AES cases which could help the periodical screening of JE cases. Non availability of these data does not give any guidance to state to know the actual disease burden. Hence Printing of AES case register is required to maintain in the pediatric and medicine ward of each DHHs, SDHs &MCHs of the state. Budget Approved for 2022-23 & 2023-24: AES Case Register(@Rs. 200/Register) Budget Breakup: a. Rs. 200/Register * 5 Registers/MCH * 7 MCHs = Rs. 7000 b. Display board for laboratory test algorithm of AES Cases in Public health laboratories of DHHs & MCHs JE is one of the most common causes of AES. AES is not a disease but a syndrome that can be caused by multiple organisms. All Children presenting with AES i.e., Fever with Altered Sensorium or new onset of seizures, should be investigated to differentiate Acute Encephalitis from Acute Meningitis. Since its i critical to diagnose all known etiological agents of acute encephalitis/encephalopathy and menigo-encephalitis (i.e., JE, Scrub Typhus, TB., Bacterial Meningitis, Leptospira, dengue, chikungunya, malaria etc) it is paramount important of understand the test algorithm in the line of clinical presentation to help in distinguishing between different

	1.1.5.1	Dengue & Chikungunya: Case management	Per Block	1000	0.01	0.8	0.01	0.8	0.01	Efficient case management requires proper and timely diagnosis. For dengue and Chikungunya, ELISA based diagnosis is the confirmatory method of diagnosis. This facility is available at 38 sentinel sites confined to DHHs, MCHs and RMRC. It is therefore necessary to send blood serum samples of suspected dengue/chk cases to the sentinel site laboratory. Approval: 1. Serum transportation: Dengue has become perennial public health problem in Odisha. Dengue upsurges and outbreaks are reported from various parts of the state frequently last 5 years. It is an unpredictable disease in the state and having reported from various eco geographical settings and previously considered low risk areas. Prevention and control of dengue / chikungunya is possible only through timely diagnosis followed by control measures. Under such circumstances to ensure the timely diagnosis of suspected dengue/ chikungunya cases to the nearest SSL serum transportation cost is proposed. cost is proposed which is to be kept at district level, to be given to the serum transporter for ta/da etc. @ Rs. 1000/- per block x 314 blocks= Rs. 3.14 Lakhs 2. 		Contingency support to DA	Per DA	75	0.00075	-	-	-	-	FY 2022-23 & 2023-24: For ensuring maximum anti filaria drug compliance and supervision Odisha had done a pilot-based endeavor of house marking and finger marking in 17 MDA districts in 2021. This witnessed a great success in enhancing the drug compliance in the community. Since it was not a budgeted item, the same could not be implemented uniformly across all the MDA districts. Under such circumstances in the current PIP prevision for marker, chalk and printing micro plan format is proposed under contingency Rs. 75 per DA for use of marker pen and chalk (Rs 60 for marker, 10 for chalk, 5 for printing micro plan format). Total 143600 DAs for covering 403 IUs of 21 districts in 2022-23 Total 129240 DAs for covering 360 IUs of 21 districts in 2023-24 Budget Approved for 2022-23 : Rs. 75 x 143600 = 107.70 lakhs Budget Approved for 2023-24 : Rs. 75 x 129240 = 96.93 lakhs	
		IDA Administration Cost	Per DA	125	0.00125	-	-	-	-	FY 2022-23: (Ivermetin + DEC + Albendazole)(IDA) Studies in India and elsewhere have shown a great impact in reducing the mF load drastically in the endemic areas with few rounds of IDA and moved hastily to elimination phase. Under such circumstances IDA is proposed in 12 endemic districts i.e. Angul, Bargarh, Dhenkanal, Ganjam, Jajpur, Jharsuguda, Kandhamal, Keonjhar, Mayurbhanj, Sambalpur, Sonepur, Sundergarh having population of 185.68 Lakhs covered by 74274 DAs. The State of Odisha is doing the approx. 150 nos RCS every year. However, there are approximately 400 nos of beneficiaries for which RCS is not conducted yet. The reasons being- • For each RCS, the beneficiary need to Stay for average 3 months in Hospital (for Post operative recovery and physiotherapy) which may beneficiary find difficult. • Most of the beneficiaries need to travel 100 to 200 Kms in average for reaching the designated site for RCS and many a times, they are reluctant to travel so far. ASHA being the representative of the Health Dept residing at village level, it is envisaged that community engagement and counseling by ASHA (individual and family) will increase the footfall for leprosy deformity cases for RCS. The ASHA will get incentive @ Rs 500 per case of each complete Surgery. Budget: 200 Cases x Rs 500/- = Rs 1.00 Lakhs</p>

PMDT & TBHIV Coordinator/ PPM Coordinator Justification: Replacement of 104 nos of vehicle is required as the vehicles have completed more than 6 years and covered more than 100000 Km./vehicles have become off-road Budget: @Rs.70000/- per vehicle X 104 unit = Rs. 72.80 lakhs Changes made as per States decision: Justification for providing vehicle allowances instead of purchase of new vehicle for field staff (NTEP): As per Gol guidelines, used vehicles can be changed on completion of every 6 years term or running more than 1,00,000 KMs. As State is finding difficulty in maintenance of vehicles and condemnation/ disposal of old vehicles, following proposal has been placed for consideration. Providing Vehicle Allowance to Staff : Plan is to provide Rs.1000/- PM as vehicle allowances to concerned staff if s/he is using its own vehicle for field monitoring for recommended no of days as per the ToR and submit filed visit report to all concerned as per guidelines. This will be exclusive of POL cost claimed for field visits as per Society norms. Justification for arriving the cost norms for vehicle allowance: A new vehicle (Two Wheeler) is costing about Rs.70,000/- inclusive of all taxes etc. The age of vehicle for use is about 6 years as per Gol guidelines. So annual expenditure on the head is about Rs.12,000/- (Rs.70,000/ 6=11,666). Hence, as per the calculation, Rs.1000/- can be given spent on the head. Coverage: The provision will be applicable for those 104 Staff who has no vehicle / vehicle attained the age for condemnation. The same provision will be extended to others gradually.

86		Vulnerability Mapping					0.00	0.00	<p>Vulnerability mapping and ACF – All the household in state to be visited by HW(Male) to generate awareness on TB and to access vulnerability and risk factors for TB in the population, based on which all the individuals will be provided a vulnerability score. ASHA will facilitate HW(Male) in the mapping exercise. HW(Male)s are decided to carry out survey activities considering technical aspect requirement for data collection during H-t-H visit and also keeping on an eye of burden of activities conducted by ASHA. Active case finding to be conducted on priority to the high-risk vulnerable score population in the community for early detection of TB Cases. Vulnerability mapping is a unique surveillance model to maximise numbers of cases and minimise delay in detecting TB infection and disease. Documentation of Data for Vulnerability mapping to be done in Excel sheet by the CHOs / Available health staff decided by District. The entire exercise of assessment may be repeated once every 2 years in the district. Budget Approved in 2022-23: 1. Total Rs 150 per day as incentive to be provided to HW(Male) and ASHA (Rs 100 to HW(Male) towards mobility cost and Rs 50 to ASHA for facilitating vulnerability mapping exercise) Total Incentive: 2.16 Lakh man days x Rs 150/day = Rs 324.00 lakhs 2- Documentation: 86.4 lakhs household X Rs.1/- per data Personnel per household = Rs.86.4 lakhs 3- Format printing for data collection: 378.4 lakh population (80% of total 473 lakh population) X Rs.0.50/- per format per person = Rs.189.20 Lakhs 4- Sensitization of District NTEP staff (DTO, DPC, PMDT & TBHIVC, PPMC, Accountant, HQ STS, DEO, DPM, DAM, DDM) on vulnerability mapping for high-risk active case finding. 	New Activity	Equipment for replenishment of old equipment of SNCUs	Lumpsum	3,01,05,000	301.05	0	0	0	0.00	Proposal: Since many SNCUs in the State have been established prior to 2014, which is 7 years earlier , a lot of equipments have broken down and need replacement. As using those equipment after repeated repairs, is affecting the quality of equipment. Currently, there are 30 such SNCUs in the State, out of 45 functional SNCUs. Therefore, it is proposed to replenish a certain set of equipments in those SNCUs, based on gap assessment. Proposal for 2022-23: To replenish old SNCU equipment in all 30 old SNCUs which are established during 2007 to 2014. 	New Activity	Equipment for high case load SNCUs (Bubble CPAP and Capillary method Bilirubin estimation meter)	Per unit	2,50,000	2.50	0	-	0	-	<p>Proposal: Proposal: To provide 1 capillary method estimation of bilirubin estimation machine to 5 MCH level SNCUs (VIMSAR Burla, SCB MCH Cuttack, SVPPGIP Cuttack, MKCG Ganjam & PRM MCH Baripada) for accurate & quick estimation of bilirubin with lesser blood drawal.</p> <p>Justification: Although each SNCU is provided with a transcutaneous bilirubinometer, it cannot be used for appropriate estimation of bilirubin after one session of phototherapy. Moreover, if serum bilirubin estimation is done through Central laboratory, it is time consuming and needs drawal of more blood. Therefore it is proposed to give one capillary method estimation of bilirubin estimation machine to 5 MCH level SNCUs which is a newer technology and gives accurate estimation in a lesser time with lesser drawal of blood from severely sick newborns.</p> <p>Cost per unit = Rs. 2,50,000 Proposal for 2022-23: @Rs. 2.50 lakhs X 1 unit x 5 SNCUs = Rs.12.50 Lakhs Proposal for 2023-24: Requirement saturated in 2022-23, So no new proposal in 2023-24 Shifted from RCH-3, Sl. 7.8		Transportation cost for HIV testing of Exposed Babies (Below 18 months)	Per Case	1,000	0.01	0	0.00	0	0.00	<p>New Activity Transportation cost for HIV testing of Exposed Babies (Below 18 months) Justification: Activity is proposed for testing HIV exposed children for HIV for at least 4 times during 2 years of age at ICTC at defined intervals. Expected exposed babies is estimated as 90% of identified HIV PW during 2019-20 & 2020-21. A total of 642 PW were identified as HIV positive, so the estimated HIV exposed babies is estimated at 90% of 642 = 578 babies. It is thus proposed to provide transportation cost of Rs.1000/- per baby for HIV testing at ICTC at the age of 45 days , 6 month, 1 year and 18 month. As 108 ambulances are used only for transportation of critical cases and also it doesn't have a drop back service, it is proposed to give additional transportation cost to these babies for ensuring HIV testing. Budget: Rs1000 per baby x 578 exposed babies = Rs.5.78 Lakhs Proposal for 2023-24: Transportation cost for HIV testing of Exposed Babies (Below 18 months) Justification: Activity is proposed for testing HIV exposed children for HIV for at least 4 times during 2 years of age at ICTC at defined intervals. Expected exposed babies is estimated as 90% of identified HIV PW during 2020-21. A total of 300 PW were identified as HIV positive, so the estimated HIV exposed babies is estimated at 90% of 300 = 270 babies. It is thus proposed to provide transportation cost of Rs.1000/- per baby for HIV testing at ICTC at the age of 45 days , 6 month, 1 year and 18 month. As 108 ambulances are used only for transportation of critical cases and also it doesn't have a drop back service, it is proposed to give additional transportation cost to these babies for ensuring HIV testing. 1.3.1.15		Recurring cost for PICU	Per Annum	300000	3.00	0	-	0	-	<p>Recurring Cost for PICU Currently there are 4 PICUs in the State at MC&H level, at MKCG MC&H Behrampur, VIMSAR Burla, SVPPGIP Cuttack and SLN MC&H Koraput. All 4 PICUs are already functional. Therefore, there is no civil or equipment cost required. Only recurring cost @Rs.3L per annum for each 6 bedded PICU is proposed in PIP 2022-23 and 2023-24. Budget: Rs.3.00 Lakhs x 4 PICUs = Rs.12.00 lakhs Recommended in NPCC Meeting</p>
1.3.1.15		Recurring cost for HDU & ETAT	Per unit	600000	6.00	0	-	0	-	<p>Ongoing Activity A. Pediatric HDU & ETAT A 6 bedded Pediatric HDU & ETAT was approved in PIP 2021-22 for establishment at DHH of 10 aspirational districts. However, since a 12 bedded (8+4) Paed. Hybrid ICU (HDU+ICU) was sanctioned to be established in 29 DHHs in the State, under ECRP-2, the funds sanctioned under civil & equipment for HDU&ETAT for 10 aspirational districts were reappropriated and it was decided at State level to use the same funds for establishment of a Pediatric ETAT in all the 32 DHHs in the State to saturate all DHHs with a functional ETAT. There were 80 lakhs under civil and 48 lakhs under equipment approved in PIP 2021-22 for HDU & ETAT, which was reappropriated as Rs4 Lakhs per unit (Rs.2.5 lakh for civil and Rs1.5 lakhs for equipment) for establishment of ETAT at all DHHs. Therefore, there is no new proposal of HDU & ETAT. Recurring cost of ETAT will be met out of other hospital funds. B. Pediatric Hybrid ICU Under ECRP-2, the State has planned to establish 29 twelve bedded paediatric hybrid ICUs in the State at DHH level. Since civil and equipment cost of all the 29 units will be met out of ECRP-2, only recurring cost for these 29 units @12L per annum for each unit is proposed in PIP 2022-23 and 2023-24. Recurring cost of Rs.6 Lakhs per unit is proposed on the basis of annual recurring cost of one 12-bedded SNCU. Budget: Rs.6.00 Lakhs x 29 Paed. Hybrid ICUs = Rs.174.00 Lakhs Recommended in NPCC Meeting</p>
